SupermarketBot User Guide

Introduction: Welcome to SupermarketBot, your virtual assistant for navigating the supermarket!

Getting Started:

- **Greeting**: SupermarketBot will greet you with one of its friendly messages.
- **Exiting**: You can exit the bot by typing any of the exit commands: "exit", "quit", "bye", "goodbye", "leave", "stop".

Commands:

1. Locate Items:
   - Ask where specific items are located using their names, such as "bread", "milk", etc.
   - Example: "Where can I find the milk?"
2. Store Information:
   - Inquire about store hours, special offers, and store location.
   - Example: "What are your store hours?"
3. Product Availability:
   - Check if a particular product is available in the store.
   - Example: "Do you have eggs in stock?"
4. Contact Information:
   - Get contact details for different departments like customer service, grocery, bakery, and pharmacy.
   - Example: "How can I contact the bakery?"

Additional Tips:

- SupermarketBot will generate a shopping list PDF at the end of your interaction if you've requested items during the chat session.

Contact Support: For further assistance, contact customer service at 123-456-7890.

Thank You for Using SupermarketBot!
